
eSync 2.5

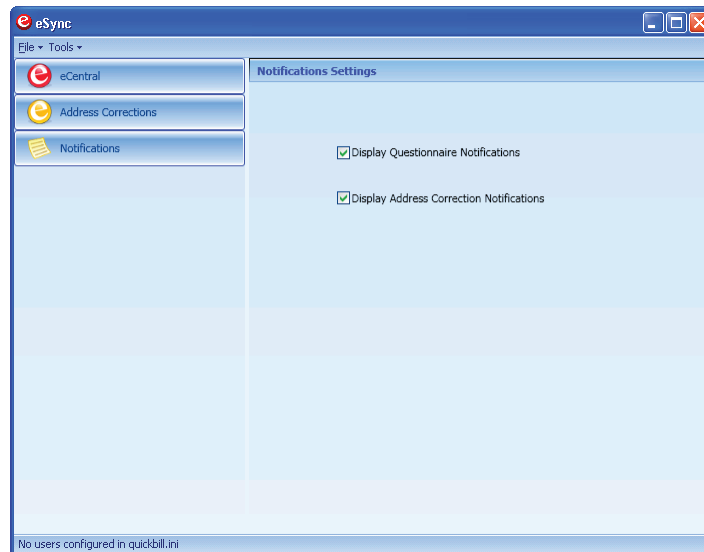

USER'S GUIDE

Notifications Setup

eSync allows you to receive notifications in real-time when you receive address corrections from the National Change of Address Service or when patients submit questionnaires. These notifications are enabled by default. To adjust notification settings:

1. Click Notifications

From the Settings pane, click the **Notifications** button to open the Notifications Settings pane.

2. Check or Uncheck Notification Options

Check or uncheck the following notification options as desired:

- **Display Questionnaire Notifications:** Notifies you when new questionnaires are received.
- **Display Address Correction Notifications:** Notifies you when address corrections are received.
