Maximizing productivity is a key to the success of your dental practice. Dentrix integrated eServices boost front office productivity with powerful digital tools that allow your team to get more done in less time.

Henry Schein One offers industry leading, end-to-end dental technology—from patient acquisition to automated reminders to payment and checkout—that work together as one system—supporting all these core tasks in your practice:

- **Revenue Cycle Management** – Increase your cash flow with tools to help you efficiently capture patient service revenues including billing, credit card processing, and submitting and tracking electronic insurance claims.
- **Patient Communications** – Maintain a full schedule and happy patients with effective and proactive communications including patient portal, automated appointment reminders and confirmations, and two-way text messaging.
- **Reputation Management** – Actively manage how your practices' reputation appears in online searches using techniques including online reviews, satisfaction surveys, and online business directories.
- **Web and Online Marketing** – Build your patient base through active practice marketing including targeted marketing campaigns, website design and hosting, blogging content, and social media services.

Dentrix eServices work hand-in-glove with Dentrix to provide an intuitive workflow that allows your team to accomplish their tasks more efficiently. Unlike solutions from other software vendors, with Dentrix eServices you don't need to purchase ad-hoc

solutions or load software bridges or patches. Integration with Dentrix means you simply click buttons in the Dentrix toolbar to access the services you need.

CHOOSE FROM FOUR DIFFERENT SERVICE BUNDLES

To help lower your costs, Henry Schein One combines integrated eServices and technical support in four **Dentrix Service Bundles**: Essentials, Momentum, Optimum Pro and Ultimate. Purchasing eServices in one of these bundles, rather than individually, offers significant savings and operational efficiency. And, as your practice grows or your needs change, you can upgrade to the service bundle that's right for you.

Dentrix Service Bundles require an annual commitment that can be paid in a monthly subscription, so you can add services to your practice without breaking the budget. Discounts are available if the subscription is paid annually. All service bundles include:

- Dentrix software upgrades
- Unlimited technical support
- Online data backup (5 GB)
- Online training
- Integrated credit card processing
