DENTRIX G7

EXPAND YOUR BUSINESS WITH DENTRIX G7

Your practice faces multiple threats: increased competition, lower insurance payments and old technology— to name a few. Luckily, you've chosen a partner who can help expand your abilities to combat the challenges facing solo practices.

Dentrix G7 lets you:

- Fill appointments easily with automated text messaging
- Simplify finding and scheduling appointments
- Accept payments that post to Ledger with Dentrix Pay
- Link saved credit cards to agreements
- Access diagnostic images in one place with Dentrix Smart Image
- Capture unlimited allergies and medical conditions in the new Health History module
- Schedule month end tasks to run any time

Dentrix G7 At-A-Glance

1. Expand your clinical workflows to keep your team productive
2. Expand your patient experience with integrated services
3. Expand your office workflows and reduce staff workloads

If you don't have a current Customer Service Plan (CSP) and want to explore some of the newest features (or just have questions), please call our Sales organization at **833.827.5125**.

HENRY SCHEIN®

> "The one word I would use to describe all of the fabulous features in the new release of Dentrix G-7 is 'CUSTOMIZABLE!' Each office can set their own personal preferences within the different modules and utilize what's most important for their needs. Some of the new features are even customizable to each work station!"

> ~ **Joanne Cameron,** 30-year Office Manager

EXPAND WITH DENTRIX G7

We understand that practices are under a lot of pressure to provide outstanding service to attract and keep their patients. Operational, financial and clinical excellence is a must if you want to stay competitive in today's dental economy. With Dentrix G7 we are bringing new innovations and customer requested features that will help you expand your care, your choice and your team's expertise, and that's good for your bottom line and your patients.

NEW HEALTH HISTORY MODULE

You can now divide Medical Alerts into Allergies and Medical Conditions, and add as many Allergies and Medical Conditions as needed (not limited to 64).

DENTRIX PAY

Dentrix Pay allows you to automate recurring payments, charge patients right from the Ledger "Enter Payment" window using EMV (Chip) credit cards, debit cards, or accept NFC (Mobile payment applications) for seamless credit card payments in Dentrix.

NEW APPOINTMENT LISTS

A messy, cobbled, digital workflow isn't any better than a physical one and can kill efficiencies and eat up revenue. The new Appointment Lists tool combines several previously separate lists into one customizable and searchable list to simplify finding and scheduling appointments.

FILL APPOINTMENT

Fill Appointment enables your team to make a custom list of patients and send a custom text message to each patient on the list at the same time — all without leaving Dentrix.

MONTH END AND TASK SCHEDULER

With Month End and Task Scheduler, you can schedule all of your month end tasks and reports to run automatically, without having to close out of Dentrix.

DENTRIX SMART IMAGE

Dentrix Smart Image expands your ability to give both good and fast care by protecting your practice against potential mistakes and costly human error every time you acquire images. You can also connect images with CDT codes that are then posted to the ledger, saving you time from manual entry and ensuring you get paid for the procedures you perform.
