DENTRIX QUICKBILL

Avoid the hassles of manual patient billing

STATEMENTS THAT REFLECT YOUR PRACTICE

Dentrix QuickBill gives you all the control of manually produced patient billing statements without all the dirty work or expensive inventory. With just a few clicks in Dentrix, you can send billing statements to the patients of your choice.

QuickBill allows you to send patient billing statements directly from Dentrix. The tedious printing, folding, stuffing, sealing, stamping and mailing is done for you so you can focus on other responsibilities. Your professional looking statements are completely customizable and include convenient features like a tear-off portion and remittance envelope.

SEND STATEMENTS DIRECTLY FROM DENTRIX

When it's time to send your patients a statement, you can do so quickly, easily and without the hassle of manual assembly. QuickBill allows you to send a single statement or an entire batch of statements with just a few clicks of the mouse. The efficient process gives your team more time for other projects or spending time with patients.

QuickBill gives you all the control and personalization capabilities of manually produced statements without the downside. You choose which statements to send. You can even add personalized notes.

KEY FEATURES

NATIONAL CHANGE OF ADDRESS (NCOA)

QuickBill statements receive "move update" verification to improve database accuracy. Plus, addresses corrected through NCOA are reported to you for update in Dentrix, making it easier to stay in touch with patients and reduce attrition.

RETURN ENVELOPE

QuickBill statements include a return envelope for added patient convenience and reliable remittance

PERSONALIZED NOTES

QuickBill allows you to add personalized notes to your statements. Where you once needed to hand write notes on a statement or on a post-it note, you can now have printed directly on the statement for a more professional appearance

PERFORATED EDGE

QuickBill statements have a perforated edge, making it easier for patients to return the remittance. It also makes it easier to reconcile payments.

OPTIONAL NEWSLETTERS

Educating patients on the importance of dental health improves patient retention and treatment plan acceptance. QuickBill allows you to do this with a pre-written newsletter. The informative newsletter can be included in your mailing with a click of a button.
